CONFERMENT OF AN HONORARY DOCTORATE

As Vice-Chancellor and Principal of the Vaal University of Technology, I am extremely pleased to inform you that the submissions of your name by the Honorary Degrees Committee to the Senate and Council of the University have been accepted and approved.

An Honorary Doctorate in the field of Non-Destructive Testing (Faculty of Applied and Computer Sciences) will be conferred upon you by the Vaal University of Technology on **13 September 2011** from 10h00-13h00 at the Vanderbijlpark campus. This is in recognition for your sustained contribution to the Non-Destructive Testing and Physics Departments of the Vaal University of Technology. As a Chief member of the External Review Panel for Non-Destructive Testing and member of the Non-Destructive Testing Advisory Board, you have provided our University with precious counsel and assistance as we upgraded facilities for Non-Destructive Testing at VUT. The many NDT workshops that you have conducted over the years have been invaluable in lifting the profile of this discipline within our institution.

We are highly honoured that you are able to accept this invitation and wish to welcome you to the Alumni of the Vaal University of Technology.

Yours sincerely

Prof Irene Moutlana
